## Certificate schedule

### UNITS OF CERTIFICATION

Definition: Target stock(s) combined with the fishing method/gear and practice (including vessel type/s) pursuing that stock, and any fleets, or groups of vessels, or individual fishing operators that are covered by the MSC fishery certificate. Note that other eligible fishers may also be included in some Units of Assessment but not initially certified (until covered by a certificate sharing arrangement).

Please note that these are the Units of Potential Certification for this fishery assessment (i.e. that which was assessed). What is actually certified to carry the MSC ecolabel is detailed within the body of the Public Certification Report.

**THE POINT(S) AT WHICH FISH AND FISH PRODUCTS MAY ENTER A CHAIN OF CUSTODY**

The limit of identification of landings from this fishery is to the point of landing, whereupon fish and fish products may enter chains of custody.

Although landings are mostly into Danish ports, certified vessels may also land into other EU countries. There are no restrictions defining port of landing, over and above those stated in national fishing regulations.

Only North Sea and Skagerrak saithe caught by Danish registered vessels in the manner defined in the Units of Certification shall be eligible to enter the chain of custody, and only where fish is landed to a MSC Chain of Custody certified business. Chain of Custody should commence following the first point of landing at which point the product shall be eligible to carry the MSC logo.
