THE POINT(S) AT WHICH FISH AND FISH PRODUCTS MAY ENTER A CHAIN OF CUSTODY

The eligible points of landing are Hanstholm and Thyboron in Denmark.

Tracking and traceability information for this fishery is considered sufficient for product to be eligible to enter further chains of custody.

The point of change of ownership for product from the fishery will be acceptance of fish by customers into their own storage and processing facilities. All merchants and processors wishing to sell MSC certified fish that has been purchased from this fishery will therefore require their own Chain of Custody certification.
