## Certificate schedule

### UNITS OF CERTIFICATION

Definition: Target stock(s) combined with the fishing method/gear and practice (including vessel type/s) pursuing that stock, and any fleets, or groups of vessels, or individual fishing operators that are covered by the MSC fishery certificate. Note that other eligible fishers may also be included in some Units of Assessment but not initially certified (until covered by a certificate sharing arrangement).

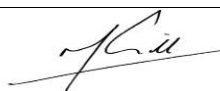

Please note that whilst the Units of Certification detail the full extent of what was assessed, it is the full and complete Public Certification Report (July 2012) that precisely defines the exact nature of certification for this fishery.

**THE POINT(S) AT WHICH FISH AND FISH PRODUCTS MAY ENTER A CHAIN OF CUSTODY**

Sole covered by this certificate may be landed to Danish registered ports, or other registered ports in Norway and the EU. There is no requirement for the vessels to land at ports named in the Public Certification Report (May 2012).

Only North Sea common sole (*Solea solea*) caught by DFPO registered vessels in the manner defined in the Units of Certification under restrictions detailed throughout the body of the Public Certification Report (May 2012) for this fishery shall be eligible to enter the chain of custody. Chain of Custody should commence following the first point of landing at which point the product shall be eligible to carry the MSC logo. There are no restrictions on the certified product entering further chains of custody. The DFPO Denmark North Sea sole fishery does not require its own chain of custody certificate.

The actual eligibility date for this fishery is 14th August 2011.
